

Client: Allied Bakeries

- This demolition project was carried out working around a live food processing environment. The scope of works involved completely demolishing 40% of existing buildings adjoining their food processing plant and completely demolishing the Ryvita's food processing plant that was located next door . This was part of a £38M upgrade redevelopment of Allied Bakeries Stockport manufacturing plant. The scope of works included dismantling and removing all existing buildings, flour storage silos and plant and machinery from the new development site
- Sector: Processing
- Location: Stockport
- Duration: 4 months
- Value: £300K
