

Client: Telford & Wrekin Council

- Deconstruction of former Focus retail store at Telford Shopping Centre. The building abutted a newly constructed Cineworld IMAX complex so a delicate approach was needed to ensure demolition didn't impinge any buildings within such close proximity. The site was also adjacent to public car parks and the main thoroughfare to the Shopping Centre.
- Holes were cut in each of the main roof beams to allow RVC to use Telescopic Forklifts to firstly support the beams whilst they were cut free and then to lower these safely to the ground. The building was completely demolished with all scrap and waste materials recycled and removed from site

- Sector: Retail
- Location: Telford Shopping Centre
- Duration: Two months
- Value: £120K
